(*) Team designator only. There was no third armor at the rally.

BuC ESU's Terradyne

BeC ESU's Lenco Bearcat

Utility Terrain Vehicle (UTV)

Drivers

The drivers listed above are those who drove the teams to the rally site on the morning of the event, from the offsite meetup location.

The operators who drove the armor and UTV during the event were:

Can-Am High Defender

SQ400: Most Likely Schaffner

SQ200: GAT #@ Cmdr. Shane

UTV: QRF ATL Sulerud

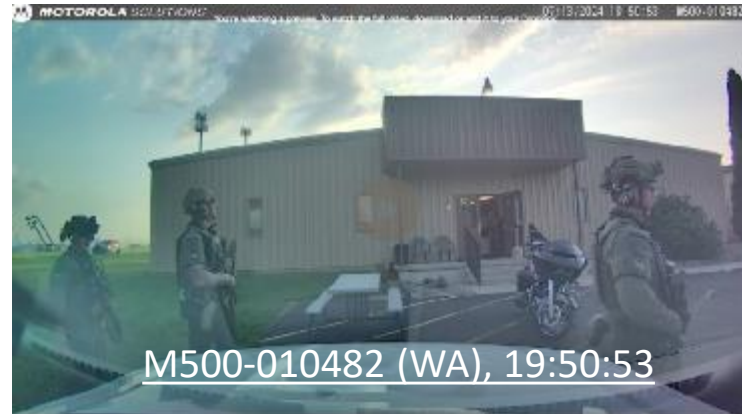

(Disclaimer: This information is provided for investigation identification purposes only. No blame or fault is intended or implied.)

At 18:27:05, after arranging for CAT #1 to take the Terradyne to the hospital to support a request for tactical resources to set up a perimeter, Sgt. Lenz states that he requested North Hills SRT to backfill those resources. We can see in dashcam video that they do arrive, along with members of the City of McKeesport SWAT. It is not known if they brought their Allegheny County armor, but it would be safe to assume they did. They likely parked it on the rally side, perhaps near the BuC Command Center or along the AGR fence.

18:26:56	426	PD Ops 4	100502	Mikulan	Whichever element you have responding to the hospital have them link up with state police when they get here and set up a perimeter, whatever they can do
18:27:05	427	PD Ops 4	100501	Lenz	Copy, bravo1 is coming, and I have requested North Hills SRT to backfill.

Allegheny County

Near the end of the video below you can see Allegheny County’s armor. The North Hills and City of McKeesport, both of Allegheny county, responded to AGR 6 at approximately 19:50, having been requested by Sgt. Lenz to backfill CAT #1 since they supported the hospital visit.

Washington County

The WRSWAT’s LENCO Bearcat was not used at the rally, but they do have one.

Counter Assault Team

The Counter Assault Team (CAT) provides direct, tactical support to Secret Service protective details, including those of the president and vice president of the United States. CAT personnel receive advanced training in weapons handling, tactics and decision making. CAT's primary function is to divert, suppress and neutralize an organized attack against a protectee, motorcade or supported location. To accomplish their mission, CAT personnel conduct thorough tactical advance planning and extensive coordination with supporting tactical entities.

CAT members are selected from the ranks of special agents.

Trump to announce Sean Curran, the head of his Secret Service campaign detail, as Secret Service director, according to three sources who I've spoken over several days this week.

Curran is on the right in this iconic photo from the July 13 Butler assassination attempt. ([Real Clear Politics](http://RealClearPolitics))

18 And as that's happening SAIC Curran is kind of crashing on his lower section, kind
19 of zippered in, and then you see SSA Piant coming across over the top.
20 And that's what I did.
21 Q Right. And then -- so were you the first person to actually physically reach
22 him, as far as you know?
23 A I was. ([Task Force ASAIC DTD Transcript](http://TaskForceASAIC.com), Page 98)

The top supervisors who had to sign off on the security plan for the Butler rally are Tim Burke, special agent in charge of the Secret Service's Pittsburgh Field Office, and Nick Menster, assistant special agent in charge of the Trump detail. ([Real Clear Politics](http://RealClearPolitics))

Sean Curran, the detail leader and top boss of Trump's regular 60-member protective team, and his deputy, Matthew Piant, complained of "rumors, innuendo and toxicity" among the detail, as well as "selfishness and immaturity." ([Real Clear Politics](http://RealClearPolitics))

(Note: Names from unredacted BuC Detail (provided by BeC Det. Bonnie Sedlacek to Jason Goodman) and BuC radio logs (provided by BuC ESU to Ken Silva).

(**Disclaimer:** This information is provided for investigation identification purposes only. No blame or fault is intended or implied.)

Argument For Being Secret Service Operations

1. In area of tents where operations were believed to be stationed
2. All three were wearing suits (Pittsburgh Office Attire)
3. Talking with a USSS Uniformed Division Police
4. All three had their guns drawn, but hid behind the truck
5. Most likely USSS lapel pins, but not in HSI police uniforms

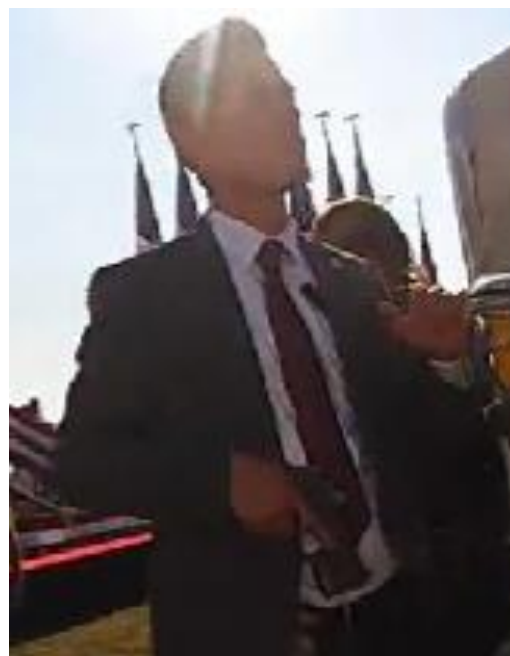

[Site PI – in email to HSI on jump team'] I will have lapel pins and extra radios/surveillance kits if anyone needs one. ([Task Force Transcripts](#), Page 36)
