2024-07-08

- The team leader of a unit has indicated beforehand that he will leave the sniper group at 16:00. Read together with later evidence this is the person is part of the team who later was put in charge of the AGR Building designated 10S3.
 - In an article of CNN⁴ where Sgt. Greg Nicol was interviewed, it was revealed that Det. Pat Young is the commander of the Beaver County SWAT team and Nicol's boss.
 - Members of the AGR Building team are Sgt. Greg Nicol SWAT team member from Beaver County, Jason Woods also from Beaver County and a third member who was from Butler County's SWAT team.
- The possibility of being restricted as a unit only ON CALL was raised due to lack of resources.
- It seems that this group initially had limited overwatch duties at this point of time as per the comment that overwatch will be from a bearcat.
- An initial planning meeting with the commanders took place according to Col Christopher Paris.
- The U.S. Secret Service conducted its first walk-through of the site as part of the advance preparation.

2024-07-09

- In a BDSA Bodycam footage, 122125⁵, (18:22:52) it is mentioned that local law enforcement asked the Secret Service to post agents at the AGR Building. They were under the impression whoever might be posted there, will be posted on the roof.

- Apparently a meeting took place on this day.

2024-07-10

- A Text group is created for the crew that had to work the Donald J Trump detail⁶ as per the Grassley Document - beaver_esu_officer_assignments_group_text_redacted.
 - It was assumed that it would be a hot day
 - They were tasked with bringing a “folding chair and sun lotion”
 - At this point it was assumed that they would be “tucked out of site.” (Sight?)
 - *It is unclear at what time the event was moved from the Butler Fair Grounds to the Butler Farm Show. The meeting place is indicated here as Meridian FD at 121 Sparks Avenue, one could assume the members already knew by then the rally will be at the Farm Show.*

2024-07-11

- According to Col. Christopher Paris, a site walkthrough took place and Butler ESU was assigned the AGR building area. (Note that as previously mentioned, Beaver ESU was assigned to support Butler ESU, so it was not exclusively Butler ESU on duty.)
- Secret Service agents were present at this walkthrough.
 - There is a video⁷ of the SS agents at Butler during a walkthrough.
 - The woman who had problems with the gun was the agent in charge.

2024-07-12

- The Butler County ESU Commander personally reminded the USSS counter-sniper teams to pick up their assigned radios at the ESU Command Post RV, the following morning before 1100 hrs. This is according to the Clay Higgins report of 12 August 2024
 - The radio comms were properly and perfectly arranged during the extensive pre-mission planning according to the report.
 - USSS did not retrieve the radios that had been set aside for them by Butler County tactical command on 07/13.

14:45 - Crooks signed in at the rifle range

- Thomas Crooks was at a local shooting club practicing on the rifle range according to records released by Sen. Grassley.
 - According to Fox News⁸ the FBI Director Wray said that the rifle was originally bought by Crooks father but later legally sold to his son. (Karl)

18:55 – Meeting place was announced

- Meeting place for Donald J Trump Detail was communicated as per Grassley document.

⁶ Grassley Document - beaver_esu_officer_assignments_group_text_redacted

⁸ <https://www.foxnews.com/us/trump-shooter-thomas-crooks-family-had-14-guns-home-father-legally-sold-gun-son-fbi-director-wray>

- The meeting place was changed from Meridien FD to the FOP (Forward Observation Post) at the back entrance of the Farm show grounds.

2024-07-13

32 Degree Celsius

5mph Western Wind (Estimated at time of shooting)

09:00 – Briefing takes place at at FOP

- Butler County ESU LEO hosts a general briefing.
 - In the meeting, Bravo Team Leader gave out Assignments
 - State police was noted to not give any input in the meeting in the After Action report.
 - Sgt. Greg Nicol and other snipers were assigned to be inside the AGR building in this meeting as stated in a CNN Article. They were apparently directed to several windows on the second floor. They were instructed to remain covert.
- The Members of the Meeting was as follows: Washington Co. ESU, Beaver Co. ESU, Butler Co. ESU, State Police.
 - According to an interview with the Swat team, during the whole day no meeting was held where the Secret Service was present.
 - Media reports Secret Service was absent
- There is a detail plan released by Grassley⁹. There is a sectors map ordered per importance on page 11. This map excludes the AGR building as a priority.
 - *Some of the maps seem older than others in the Detail plan, for example the sniper positions on page 12 and stylistically some maps differ from each other. On this map the Butler sniper was posted on the roof of the AGR Building.*
- If you look at page 4 of the Grassley Sniper positions document¹⁰, you can see that two maps were taped to the wall, the overall Threat Sector Map of page 4 and a generic satellite image where the butler and Washington sniper post in the south was marked with a red pen.
 - On the top map the position marked with a red pen on the photo is the same as the sniper positions of page 12 where only one building was marked, instead of both buildings as in the image on page 2, 39 & 41.
- Page 15 indicates that sniper teams are issued a Butler County Radio.

10:00? – Crooks arrives at the rally site

- According to the New York Post, Crooks stopped at a Home Depot in the morning to purchase a Five-foot ladder (NY Post timeline)
- Around 10:00 Crooks arrived at the showgrounds and remained there for about 70 minutes before returning home. FBI Timeline

10:15? – Beaver Co ESU in place

- Sgt. Edward Lenz, the tactical commander for the Butler County mobile unit, was inside a white trailer, a mobile communications hub for local police, according to Washington Post¹¹. This Trailer was located next to a lakeside warehouse to the south of the rally site.

⁹ Grassley Document - butler_esu_djt_fpotus_detail_plan_redacted2

¹⁰ Grassley Document - beaver_and_butler_county_counter_sniper_positions_redacted

- Sgt. Lenz was joined by a deputy commander in the Butler County Emergency Services Unit, a Butler County sheriff's sergeant and a county employee.
- There were three encrypted communication channels in the trailer that was monitored.
- No one from the Secret Service was inside the trailer; the federal Agency had its own mobile command post almost 300 yards away to the northwest.
- If Lenz wanted to contact SS, he had to pick up his cellphone and dial a state trooper to relay the message.
 - *There was once mentioned that someone only had to turn around and tell the Secret Service to give information, I currently do not have the source of this statement, but believe it was in Col Paris's testimony.*

10:30? – Snipers in place

Snipers occupy their positions. There were four counter sniper posts as per the detail plan

- 10S1 – Posted on the Grandstand and very little information exists of them due to a lack of impact on the proceedings of that day.
 - As mentioned earlier there seems to exist an internal contradiction in the detail plan where at some parts of the document only one building would be occupied but in other parts two buildings would be occupied.
- 10S3 - Posted at the AGR Building and was tasked to secure that area. They are a sniper team as confirmed by Grassley bodycam footage¹² released and Sgt. Greg Nicol was seen with a sniper rifle in the BCSA Dashcam footage, M500-010482¹³ at 19:59:46.
 - *Note that there is a contradiction between the Detail Plan and the After Action report. The Detail plan puts the Butler Sniper in the corner room, but the After Action report puts a Beaver sniper in the corner room.*
 - *Sgt. Greg Nicol is one of the Beaver snipers, and there may have been 3 snipers in the second floor in Building no.3 at one point.*
 - **There are reports and whistleblowers that the team themselves decided to set up post inside the building because it was a hot day and there was an AC unit in the room. Unverified for now.**
- Hercules 1 - One was posted behind the podium on the south building and they seemed to be tasked to survey the south of the podium.
 - They had a clear view of the AGR Building no. 6 rooftop where Crooks eventually fired shots towards Trump from their position. The area towards the east of Crooks was behind the tree. All of this could be seen in the photos shown by Acting Director of the Secret Service Ronald Rowe in his testimony¹⁴.
- Hercules 2 - One was posted behind the podium on the north building and they seemed to be tasked to survey the north of the podium, which includes the AGR Building.
 - This team did not have a direct line of sight to the position of Mathew Crooks, since a tree was in the way as shown in the video of Rep. C Gimenez.¹⁵

- Lack of information, but part of the After Action Report

13:00 – Gates opened for the Public

- According to Grassley Documents, magnetometers, which help detect ferrous items, should have been activated at this time.
 - According to the assignments text group, magnetometers would be active from 13:00 to 16:00
- The queue for entering the rally site was hours long.

13:03 – The Leader of the AGR sniper unit was added to a Text group

- Note that Grassley has released two documents of this text group.
 - First: beaver_and_butler_county_counter_sniper_positions_redacted¹⁶
 - Second: beaver_butler_and_washington_county_sniper_group_text_photos_of_crooks_redact¹⁷

13:45 – SS Counter Sniper meets up with Local Snipers

- According to Local Sniper text group, the local snipers were scheduled to meet up with the SS Counter Snipers at the Grand Stands.
 - There is no indication in this document that it was cancelled or they were stood up.
 - According to an interview by ABC News with the SWAT team, where Greg Nicol was present, the SS counter snipers were supposed to give the local snipers a briefing, but according to them this did not happen.¹⁸
 - According to the same spokesperson in the interview, they did not have any contact with the Secret Service before the shots were fired.

15:13 – Report came in that Trump is delayed

- A Person messaged in the local sniper text group that trump was delayed by an hour.

15:45? – Crooks returns to the rally site

- *It is unclear what exactly they mean by the term that Crooks arrived. Where did he arrive at, because this says at the rally site? Does that mean at the rally parking lot or at the Gas station or both at separate times? How did they get the time and location? Did they get the information from a camera, his cellphone or another source?*

15:51 – Crooks scouts with a drone

- Crooks flies a drone just outside the inner perimeter of the rally, possibly to scope out security. The flight lasts 11 minutes and comes within approximately 200 yards of the Farm Show grounds. (FBI Timeline)
- The drone and controller were later found in Crooks car. Analysis did not reveal any photos or video taken by the drone, but the FBI states that Crooks was live streaming and would have been able to view it on his controller.

16:19 – Sniper of 10S3 leaves

- Jason Woods leaves his post.
 - According to Photo released by Grassley²⁰, this person leaves through exit no.9 on the east side of Building 6.
 - In the Grassley documents a text group existed for Snipers assigned to the AGR Building²¹. It is important to note that at 17:52 Jason Woods send a message that the bike was not under the tree when he left his post. This could indicate that Jason Woods did not leave through exit no.9 but left the AGR building to the west side, otherwise he would not have noted the absence of the bike.

16:26 – Sniper of 10S3 notices a suspicious individual

- Jason Woods sees a foreign car parked at the exit of AGR building and assumes that the person sitting at the picnic table is the owner. Jason Woods claims that this person was Thomas Crooks.
- On a Text group that seems to be of his team, Jason Woods informs them of this person.
 - He mentions that Crooks knows they are in the building
 - Two people, one with the Initial N and other M acknowledges this msg.
- New Footage was released where Crooks can be seen walking northwards at the Merchant stands at the Butler Rally²². The Merchant stands were located on the road on one of the three intersections at the east side of Sector 7, Dairy Barns and Hangers, in the Grassley detail plan. The merchant, **Joe Tomko, who owns Iron Clad USA**, claimed that this was taken at 16:26.
 - This time contradicts with Jason Woods

17:00? – Incident at Magnetometer

- Early on the CNN²³ and NY Post reported that Crooks set off the metal detector at the rally entrance, because he was carrying a rangefinder. In the CNN article it was stated that the source was from a senior LEO.
- According to NY Post, Crooks was still allowed to enter through the entry gates, but the authorities, in particular a rooftop counter sniper team, kept close watch on him until he departed the secure area. It was further stated by the New York Post that, quote: “Crooks was scoping them out with his rangefinder while they watched him with theirs.”
- Further reported by NY Post is that Crooks drew suspicion, after the above event, quote: “– not once but twice – and was even photographed and reported.”
- According to Sen. John Barrasso²⁴, he took part in a Secret Service, DHS briefing. From this briefing it was stated that at least a full hour before the shooting, Crooks was identified as a suspicious character.
 - Quote: “That shooter was identified as a suspect, suspicious character a full hour before the shooting occurred. Had a rangefinder, a backpack, then lost sight of him and never really followed up on that. This was an HOUR before!”
- *It is unclear when exactly these events happened. NY Post claimed it was 3pm, Sen. Barrasso stated 17:00, but all of these and other timelines contradict each other. The 3pm could be a typo because in the same article they are quoting Sen. Barrasso. For this timeline we will assume that the intended timeline was closer to 17:00.*

17:02 – Red Truck guy tries to remove people from his property

- According to footage released by Dayve Steward²⁵, a man attempted to remove people from the AGR property or that area on the south/east side of AGR Building 6.
- A few minutes later, 17:10 according to Steward, a sheriff vehicle arrives and seems to resolve the issue. The person left after the discussion with the officer from the vehicle
 - According to an interrogation of Steward²⁶ the person who tried to remove them, claimed to be the owner of the AGR and was driving in a red Ford Ranger truck. The person has highly agitated according to Steward.

17:04:40 – Second video of Thomas Crooks

- He parked at a gas station about a third of a mile (500m) away called Sheetz.
 - *It is assumed that Crooks parked at Sheetz about 16:50 to 16:55*
 - *It must be noted that in all other evidence it was not suggested or mentioned that Crooks parked at any other place. The only other suggestion was by Jason Woods that Crooks parked at the AGR building. This, however, does not exclude the possibility that Crooks parked at other places beforehand.*
- At 17:04:40 a dashcam video, seen on News Interactive in the same article mentioned earlier, shows Thomas Crooks moving towards the AGR building from the direction of Sheetz.

²⁵ <https://www.youtube.com/watch?v=28lxF9LONGk&t=315s>

²⁶ https://www.youtube.com/watch?v=p_IB1uDQhWE&t=40s

- It is mentioned that this video may be off by a couple of minutes to either side.

17:06:57 – Third video of Thomas Crooks

- A video, taken by James Copenhaver²⁷, who eventually was gravely wounded in the shooting, catches Thomas Crooks moving and looking around at the south side of the AGR Building no. 6.
- The time was confirmed by synchronizing the Elvis Pressley song with RSBN live footage.

17:10 – Sgt. Greg Nicol positioned in the AGR building observes Crooks

- According to the After Action report released by Grassley²⁸, Local law enforcement sniper, Sgt. Greg Nicol, spotted Crooks walking past the window. (After Action Report Timeline)
 - Quote from ABC Interview: “He was looking up and down the building and just walked around and just seemed out of place.”

17:14 – Pictures taken of Suspect by Sgt. Greg Nicol

- Crooks stood at the wall and at this moment a photo was taken of him by Sgt. Greg Nicol. (After Action Report Timeline)

17:28 – Picture of Bike by Sgt. Greg Nicol

- Greg Nicols spotted a Bike and took a photo of it. (After Action Report Timeline) The bike is to the north of the AGR Building. When using the line of sight of the photo, it seems that the picture of the bike was taken from the North West window of the AGR building.
 - *The line of sight would imply that Sgt. Greg Nicol was moving around the building and did not stay at the window he was posted at. This happened before any official alarm was raised about Crooks by Sgt. Greg Nicol. The line of sight was determined by using Google Street View. Note the stump in the photo exists in Google street view.*
- According to Grassley Bodycam footage, the Beaver ESU agent said that Sgt. Greg Nicol saw Crooks walking from a bicycle and putting a bag down.
 - It was later confirmed that the bicycle was not owned by Crooks and Crooks had nothing to do with it.

17:32 – Sgt. Nicol observes Crooks looking at phone and using a rangefinder towards the stage

- According to a later message in the Grassley documents, the last position of Crooks was next to the building and Sgt. Nicol did not see where Crooks went, but suspected that Crooks went towards the back, northwards.
- According to a CNN article, after taking the photo, Sgt. Greg Nicol again spotted Crooks. He then zoomed in with his binoculars and noticed the range finder. His personal estimation of Crooks rose from odd to potential threat. CNN stated this was at 15:32.
 - *This testimony in the article would imply that after taking the photos, Sgt. Greg Nicol ignored Crooks for 18 minutes.*

²⁷ <https://www.youtube.com/watch?v=UojlcfpSFZs&t=4s>

²⁸ Grassley Documents - beaver_county_fpotus_after_action_redacted

 - At 17:34 a person on local sniper text group sent a message “Game Time!!”
 - The arrival time, according to testimony of Acting Director of the Secret Service Ronald Rowe, was at 17:30 as per the timeline of Senator Johnson²⁹.

17:34? – Butler Co. Sniper texts Butler Team

- The Butler sniper, who was stationed in the AGR team, was noted to have sent a text to the Butler team. This was an assumption in the Beaver After Action report and is not verified.

17:38 – Sgt. Greg Nicol sends text about suspect

- Sgt. Greg Nicol sends a text on the local sniper text group the photos he had taken of Crooks and a short description of what he has seen.
 - Quote: “Kid learning around building we are in. AGR I believe it is. I did see him with a range finder looking towards stage. FYI. If you wanna notify SS snipers to look out. I lost sight of him. Also a bike with backpack sitting next to it in rear of building that was not seen earlier.”

- Quote received from Washington Post³⁰: “Just an FYI, we had a younger white male, long hair, lurking around the AGR building... [] ...He was viewed with a range finder sighting the stage. ... We lost sight of him.”
 - According to Washington Post, the radio transmission set off a flurry of messages between local officers on the ground and supervisors stationed in the Butler County command center trailer.
 - “Do you know what color shirt?” one sheriff’s deputy asked.
 - “White shirt with a hat,” another answered.

²⁹ Johnson Document - 2024-07-30 Timeline of Law Enforcement Awareness of Crooks on July 13 2024 - For the Record

³⁰ <https://www.washingtonpost.com/investigations/2024/08/03/trump-rally-police-radio-transmissions/>

17:44? - Secret Service is notified of Suspicious Person

- Sgt. Ed Lenz used his cellphone to call a Pennsylvania State Police officer stationed in the Secret Service trailer, according to the official and call logs. State police Sgt. Joseph Olayer, the call recipient, relayed the information to his Secret Service counterparts in the trailer. (WP Timeline)
 - Sgt. Joseph Olayer is the person of whom Colonel Paris has testified received the information, turned around and immediately relayed the information to Secret Service. The SS gave a specific number to which the Butler ESU members should sent the pictures of Crooks.
- Minutes after Lenz passed on the suspicious-person report to the state police sergeant, Lenz radioed to local officers that help was on the way, the transcript shows.
 - “PSP (Pennsylvania State Police) and sheriffs should be in route,” Lenz told officers on the ground at 5:45 p.m.

17:45 - Problems with Cellphone reception is encountered

- As reinforcements made their way to help, officers tried to circulate photos of Crooks, but cellphone reception problems got in the way, the transcript shows.
 - On the Officers text group³¹, part of the Grassley documents; messages in this regard reflect this.
- 17:47 - “I’m trying to forward photographs of the individual,” said a local tactical team member
- 17:48 - “Units be advised internet and cell service is down,” another officer on the Butler channel said
- 17:49 - “Your picture is probably not going to go through because I don’t have any service,” a sheriff’s deputy radioed

17:49? – Communications regarding suspect and pictures

- A sniper with Butler County sends the images and description given by Sgt. Greg Nicol of Crooks to one of the Secret Service counter snipers at the rally, including that Crooks was seen using a rangefinder in the direction of the rally stage.
 - The Secret Service counter sniper responds, “Roger. I’ll notify teams on AGR side.”
 - Around this time, a Butler County tactical officer said he had “notified Hercules,” a code name for Secret Service counter sniper units, according to the transcript.

17:53? - SS Counter Sniper team leader sends email to SS Counter Sniper teams

- According to Acting Director Rowe, the Secret Service counter sniper team leader emails the Secret Service counter sniper teams that “local law enforcement [is] looking for a suspicious individual outside the perimeter, ‘lurking around the AGR building’.”

³¹ Grassley Document - beaver_county_esu_officers_group_text_photos_of_crooks_redacted

- In the New York Post article mentioned earlier, when the Secret Service was warned of a suspicious person, Crooks was identified as a threat. (NYP Timeline)
 - *Since this article, the secret service constantly held the stance that Crooks was never labeled as a threat and only as a suspicious person. It is unclear how true these statements from New York Post or Secret Service are.*

17:54? - Traffic control officers was enlisted for the manhunt

- Sgt. Lenz enlisted more officers, including police handling traffic on roads outside the rally site.
- “Our sierra units lost visual of him,” Lenz told the traffic-control officers. “I believe you guys are outside of that fence, if you come upon him.”

17:59 – Command asks for direction of travel

- Command wants to know what direction Crooks was moving before sight was lost on him.
 - On the Officers text group Sgt. Greg Nicol responds at 18:00.
 - Quote: “Not Sure. He was up against the building. If I had to guess towards the back. Away from the event.”

18:02 – Sgt. Greg Nicol spots Crooks

- From a northwest window, facing away from the rally site, Sgt. Greg Nicol spotted Crooks again. (WP Timeline). Sgt. Greg Nicol had moved to look for the suspect, according to Young, Sgt. Greg Nicol’s commander.
 - Note that the time differs with at least 3 minutes between timelines of Washington Post and the After Action report.
 - Quote: “All right, subject is in between the AGR building. He has a backpack,” said Sgt. Greg Nicol.
- From his vantage point on the second floor, Sgt. Greg Nicol was unable to discern where Crooks was headed though; the transcript shows (WP Timeline).
- Crooks walked to the northeast, toward an area between two wings of the complex of warehouses at AGR International. The space was enclosed on three sides, a dead end.
 - But Sgt. Greg Nicol suggested Crooks was headed in the direction of a gas station on the other side of the building about a quarter of a mile away. And this is the information that was circulated.
 - Quote: “He just went towards the Sheetz.”

18:02:33 - Trump takes the stage

- Trump is announced to the crowd and music plays as he takes the stage.
 - Trump was not informed of any danger and was not asked to wait before taking the stage.
- Sgt. Lenz called Olayer in the Secret Service command post to pass on a message during a 40-second call, according to the law enforcement official familiar with the police response and call logs. (WP Timeline)

18:04 - Focus stays on Sheetz

- “All units be advised also that individual is headed towards Sheetz,” a sheriff’s deputy radioed to his colleagues.

18:05? – A Local Officer is called / contacted to go towards AGR

- In the BCSA Bodycam footage, 122110³², it can be seen that the officer, referred to as Officer Ross, through some means, is redirected to the AGR building.
 - In the footage at 18:18:10 it seems that this officer is called Ross, so this is used as his name for now.

18:06 – Crooks pulls himself onto AGR building 6

- According to FBI Deputy Director Paul Abbate, a video obtained by FBI shows Crooks pulling himself onto the AGR building rooftop as per Johnson timeline.
 - This video is apparently from a local Business.
 - The video was not made public yet.
- “He’s reportedly between the building up here at AGR somewhere,” a local officer on the channel for traffic control. “I’m guessing the west side, east side looks clear.” (WP Timeline)

18:09? – Sgt. Greg Nicol / Butler ESU team leaves their post (Time unclear)

- According to After Action report Sgt. Greg Nicol goes downstairs of Building 6 (Named Building 1 in the After Action report) to meet patrol to let them know suspect is around building on side of fairgrounds.
- On page 13 of the After Action report it shows Sgt. Greg Nicol meeting Uniformed Patrol at exit no.9 of AGR building no.6
 - This contradicts with the testimony that Sgt. Greg Nicol went out to look for Crooks with his team members after losing sight of him as testified by Col Paris³³.
 - This contradicts with an X post that claims that Sgt. Greg Nicol was locked out of the building because he forgot his access card. Apparently his team mate went down to open the door for him.
- 1 Marked vehicle and unmarked vehicle pull in together. This information is added under the section that describes Sgt. Greg Nicol meeting with uniformed patrol after spotting Crooks.
 - Most likely it refers to vehicles that arrive at 18:09:02 which falls in the timeline of that after action report, 18:06 – 18:12. It also matches the description of the vehicles where one was marked, the vehicle of Officer Ross and the other unmarked, vehicle of SP1. No other vehicles matching this description are found in any footage. There were no vehicles on the west side.
- In the CNN article Sgt. Greg Nicol testified that after spotting Crooks, he ‘bounded down the stairs in an attempt to keep eyes on the suspect’. Sgt. Greg Nicol further claims that he pushed a door open and saw two officers who pulled up outside AGR. He then shouted at them where he’d last seen the suspect. The officers took off on foot in opposite directions around the sprawling AGR complex. Trump was already on the stage according to Sgt. Greg Nicol.

- *It is unclear at what time Sgt. Greg Nicol went and did this because in this CNN article it is stated as events that happened before Crooks climbed the roof, but dashcam footage and the After Action report contradicts him.*
- According to bodycam footage the Beaver ESU was under the impression that Sgt. Greg Nicol was still in the building in the open window.
- Butler County DA Richard Goldinger said in an interview with NewsNation³⁴ that the snipers never left their position in the AGR Building. He claims that the snipers did not have an angle on the roof and could not see Crooks on it.

- The first instance where Crooks is caught on camera was in the BCSU Bodycam footage, 122111³⁵, of an officer, referred as Officer 2.
 - *It is possible that Officer 2 was looking for Crooks as per the message that he went towards Sheetz.*
- Crooks is seen dropping down on the connection between Building 9 and 2.
 - The larger building to the north is called building 9 as seen on the doors in bodycam footage that says BLDG. 9-1 and BLDG 9-2

- Cross referencing the Copenhaver footage and BCSU Bodycam footage, 122111, it seems that Crooks came to a stop next to the connection between Building 3 & 6. Right next to the buildings here are a couple of pine trees in front of the connection.

18:09:03 – Two vehicles stop next to the AGR Building

- The two vehicles come to a complete stop after driving towards the AGR to confront Crooks.
 - One vehicle was marked and the other was unmarked.

 - *It is unclear at what time exactly spectators first see Crooks, since there were reports that people saw him as early as 18:08, but no evidence can be found for this.*

18:09:58 - Hercules teams Reorient towards the north

- According to a video posted by The New York Times³⁷, it can be seen that Hercules 1 counter sniper team was reorienting towards the north and Hercules 2 was looking intently through scopes. In this video you can also see spectators on the middle stand pointing towards the AGR building.
- The reorientation is confirmed in the BCSU bodycam footage, 122104³⁸. At timestamp 18:10:11 [18:09:58 CT] you see the south team, Hercules 1, reposition themselves. At this time the officer of this footage, referred to as Officer 5, is walking northwards behind the stands of the rally, sipping a drink.
 - Take note that the time in this bodycam footage is not synchronized. The timestamp runs 13 seconds early. It should have shown 18:09:58 instead at the top right at this specific moment. [CT stands for Corrected time] The bodycam footage is synchronized by using the moment the woman in the white dress flinches at 18:11:46 [18:11:33 CT]

A man, with a white hat, grey shirt and white shorts show Officer 4 where Crooks is lying on the roof of Building 6. Officer 4 leaves the screen on the left towards the north.
 - The sound of the footage is ruined by the commentator, but you can faintly hear Trump talk about “going off the teleprompter” to help synchronize the video to a centralized timeline. (If there is a better version of this footage please msg me with the link)
