“Sean Curran, the detail leader and top boss of Trump’s regular 60-member protective team, and his deputy, Matthew Piant, complained of **“rumors, innuendo and toxicity”** among the detail, as well as “selfishness and immaturity.”

Curran was one of the agents who quickly used their bodies as human shields to protect Trump in the iconic photo of the assassination attempt showing the former president raising his fist, bloody and defiant, against the backdrop of an American flag.

“The top supervisors who had to sign off on the security plan for the Butler rally are Tim Burke, special agent in charge of the Secret Service’s Pittsburgh Field Office, and Nick Menster, assistant special agent in charge of the Trump detail.” (Source: [Real Clear Politics](https://www.realclearpolitics.com))

## Argument For Being Secret Service Operations

- 1. In area of tents where operations were believed to be stationed
- 2. All three were wearing suits (Pittsburgh Office Attire)
- 3. Talking with a SS protection detail agent and a SS CAT member
- 4. All three had their guns drawn, but hid behind the truck

"5:59 PM: At approximately this time, the Countersniper Response Agent and Protective Intelligence Agent encounter one another as they are both independently searching for Crooks within the inner perimeter; they coordinate their areas of search and resume searching.."
